CROYDON.

INDEX TO ARTICLES IN VOLUME XLIX.

PAGE

Border Pining in Sheep—II. By W. Lyle Stewart and A. Phyllis Ponsford 49

Bovine Malignant Catarrh, Transmission Experiments with. By R. Daubney and J. R. Hudson 63

Bovine Contagious Abortion. The Use of Guinea-Pigs in Immunisation Studies. By A. D. McEwen and R. S. Roberts ... 97

Br. abortus. A Suspension of Uniform Agglutinability Standardised by means of a Dry Stable Standard Anti-Abortus Serum. By A. W. Stableforth 251

Br. abortus, The Isolation of, from the Milk of Cows with Negative Blood Reactions to the Agglutination Test. By T. M. Doyle 320

Br. abortus, The Value of Vaccination with Live Cultures of, for the Prevention of Abortion. By Major H. E. Keylock, F.R.C.V.S. 350

Br. melitensis, Results of Passage of Human and Monkey Strains of, through Pregnant Heifers. By D. E. Wilson (Medical Officer) and S. A. Evans (Veterinary Research Officer, Tanganyika Territory) 336

Cattle Plague Vaccine. Studies on Glycerinised Spleen Pulp. By S. C. J. Bennett 1

Cell Inclusion Disease, Notes on a Minor Outbreak of. By Sidney J. Gilbert and G. B. Simmins 148

Cyclopia in the Lamb. By Howel V. Hughes... 218

Cysticercosis cellulosae in the Monkey. A Case Report. By A. Earl Walker 141

Fowl Plague and Newcastle Disease. By Prof. Dr. R. Manninger ... 279

Fowl-Pox Vaccines, Further Studies on the Efficacy of. By A. Komarov and I. J. Kligler 90

Histomonas meleagridis, A Study on Immunity Produced by Infection with Attenuated Culture-Strains of. By Ernest Edward Tyzzer, M.D. 285

Horse-Sickness, A Preliminary Note on the Occurrence of Inclusion-like Bodies in Experimental and Natural Cases of. By W. Fotheringham 268

Irido-Cyclitis, Primary, in Fowls: a Condition Distinct from the Eye Lesions Occurring in Neuro-lymphomatosis. By H. P. Bayon 310

Malaria and Tetanus in Monkeys. By W. C. Osman Hill 274

Naganol (Bayer 205), Toleration of, by Horses. By S. C. J. Bennett, D.SC., M.R.C.V.S. 304

Nematodes in Sheep in Iceland. Experiences with Carbon Tetrachloride Drenches. By Prof. Niels Dungal and Gudm. Gislason 210

Paralysis in Fowls and Scrapie in Sheep. (A Comparison). By A. Brownlee, B.SC., M.R.C.V.S. 328

Pasteurella septica Infection, Experiments on Immunisation Against. By F. W. Priestley 340

Pasteurella septica, A Note on the Association of the Virulence of, with Capsulation. By F. W. Priestley 348

Cattle Plague Vaccine. Studies on Glycerinised Spleen Pulp. By S. C. J. Bennett, D.SC., M.R.C.V.S. 1

Border Pining in Sheep—II. By W. Lyle Stewart and A. Phyllis Ponsford 49

Transmission Experiments with Bovine Malignant Catarrh. By R. Daubney and J. R. Hudson 63

Further Studies on the Efficacy of Fowl-Pox Vaccines. By A. Komarov and I. J. Kligler 90

NOTICE TO SUBSCRIBERS.

Communications, exchange journals, specimens, etc., for the Editor should be addressed to Sir John M'Fadyean, Highlands House, Leatherhead, Surrey.

BINDING CASES.—Maroon Full Bound Cloth. Can be obtained from the Publishers and Agents, Price 3s. 6d., post free.

ELIXIR HORMONIGEN

(HEWLETT'S)

A powerful and palatable preparation of the Hormones:—Thyroid, Pituitary, Ovary and Testes, constituting a valuable remedy for Bronchitis, Asthma, Chorea, etc., in Dogs.

This preparation has also been recommended for Rickets and Arthritis in young dogs and particularly in the treatment of Skin Diseases. Many of these, such as Eczema, are largely the result of glandular deficiencies, and Elixir Hormonigen leads to great improvement—often curing forms of this disease that have resisted all other remedies.

It is also extremely useful as a general tonic.

Capt.———, M.R.C.V.S., has had great success in the treatment of Bronchitis and Asthma, the animal being cured in one month. A paralysed Terrier, that could not stand or raise the head and had no co-ordination of its limbs, was treated with Elixir Hormonigen and made a rapid and perfect recovery.

"I have had most satisfactory results in using this elixir in cases of chorea, and allied nervous complaints occurring as a sequel to so-called distemper; it has a most surprising and definite curative effect in even advanced and chronic cases." J. F. T. ———, M.R.C.V.S.

"In dogs and cats I use your Elixir Hormonigen as a tonic after all debilitating diseases and fevers. It is palatable, appetising and works wonders." E. J. L. ———, M.R.C.V.S.

The dose for Terriers, etc., is one teaspoonful 3 or 4 times a day **before** food. Airedales may be given a dessertspoonful and larger dogs in proportion. Puppies, up to 6 months, half the above doses.

Price: 6/6 per lb.; W. Qts., 6/- per lb.

Also in bottles, labelled "TONIC ELIXIR FOR DOGS," with dose,
2 oz., 15/-; 4 oz., 25/- per doz.

Hormonigen Tablets

(HEWLETT'S)

Containing various pluriglandular extracts that have been found useful in Veterinary practice.

Hormonigen No. 1, for paralysis in dogs, **3/3** per 100; **30/-** per 1,000. For sterility in cattle, particularly where œstrum is absent, 60-grain tablets, in tubes of 10 tablets, **1/6** per tube.

Hormonigen No. 5, for sterility in bitches, **3/6** per 100.

Hormonigen No. 6, for sterility in dogs, **2/6** per 100; double strength, **4/6** per 100.

Prepared only by
